

Cyber Ethics

We were taught the rules of “right and wrong” growing up. We just need to apply the same rules to cyber space!

When determining responsible behavior on the Internet and at work, consider the following:

- Do not use rude or offensive language.
- Don't be a bully. Do not call people names, lie about them, send embarrassing pictures of them, or do anything else to try to hurt them.
- Do not copy information from the Internet and claim it as yours.
- Adhere to copyright restrictions when downloading material, including software, games, movies, or music from the Internet.
- Do not break into someone else's computer.
- Do not use someone else's password.
- Do not attempt to infect or in any way try to make someone else's computer unusable.
